

FLAGGED BEFORE BID DAY

9999 CHAPIN SCHOOL ROAD, FORT WORTH, TX 76126 - BID RISK RECEIPT

I flagged risk on THIS site. Forward so the GC/owner sees it before bid.

SCREENING MEMO - not an interconnection study, Phase I ESA, geotech, or AHJ approval.

REGGUARD STAMP: HOLD

High pre-bid risk on this site. This is not a rejection of the job - it means resolve the drivers below before treating the bid as clear.

DATA CENTER - PARALLEL CLOCKS

- AHJ / building / land use: Confirm portal + Accela path before bid

- Utility interconnection / large-load: Study path is NOT run by RegGuard - flag parallel...

- Water / NPDES: Independent environmental clock - do not collapse...

CONTINGENCY (screenshot this)

+21% to +26%

mid 23% | planning aid - NOT a quote

FEE TYPES (permit vs tap vs impact)

Do not mix these. Impact and tap fees are often larger than the building permit.

[permit] New commercial construction - plan review deposit... - \$289

[permit] Building permit balance - valuation-based (confirm... - confirm schedule

[permit] Electrical / trade permit - confirm Fort Worth... - confirm schedule

[other - confirm AHJ] Stormwater drainage study review (base) - \$1,406

TOP 3 RISK FLAGS (Source or Unverified)

1. CRITICAL SOURCE

ERCOT / TDSP large-load timing

Data center or industrial large load: treat ERCOT/TDSP interconnection as parallel to City of Fort Worth...

2. CRITICAL SOURCE

Fee schedule is not a fixed number - recheck before bid

Fort Worth fee pages are planning aids. Confirm on the official Master Fee Schedule before locking...

3. HIGH SOURCE

Confirm trade application type early

Wrong application type stalls review - verify electrical vs general building path
