

LABELED SAMPLE | EXECUTIVE SUMMARY

Your Site Diligence Analysis

9999 Chapin School Road, Fort Worth, TX 76126

Executive summary

RegGuard stamp: **HOLD**

High pre-bid risk on this site. This is not a rejection of the job - it means resolve the drivers below before treating the bid as clear.

Suggested bid contingency

+21.0% - +26.0% (mid 23.0%)

What to resolve before bid

- ERCOT / TDSP large-load timing: Data center or industrial large load: treat ERCOT/TDSP interconnection as parallel to City of Fort Worth permits
- High contingency band (mid 23%): Planning aid - confirm fees/timeline with AHJ before bid.
- Fee schedule is not a fixed number: Recheck Fort Worth Master Fee Schedule before locking contingency.

Immediate punch highlights

- Pull live Fort Worth Master Fee Schedule before bid lock
- Flag ERCOT/TDSP large-load interconnect as a parallel clock (not city permit)
- Confirm Accela application type (electrical vs general building)
- Price stormwater drainage study review (\$1,406.25 base) + acreage adder
- Document plan-review deposit path from new-construction packet (\$289 intake)
